

## Flat Black Hinges by BEST

# When performance hinges on quality and design options.

BEST hinges are now available in flat black (US19) powder coated finish. This addition compliments our portfolio of hinges and delivers quality and performance in the toughest of elements.

Our flat black (US19) hinges conform to ANSI/BHMA finish standards and are available with either a brass or bronze base (622) or steel base (631). Both the 622 and 631 (US19) finishes are powder coated to provide a uniform aesthetic for all your project needs. Our hinges are designed to ensure they maintain their visual appeal throughout the product life cycle and are the ideal solution for virtually any application.

## Hinges: smooth and dependable

A door's safe and reliable operation depends on the smooth performance of the hinge system, particularly in high-traffic areas.

All BEST hinges conform to ANSI/BHMA standards to get the job done in any application.

- Full-mortise, half-mortise, half-surface and full-surface options
- Wide range of sizes for any door or frame application
- Package comes with fasteners and cardboard shims for quick installation
- Constructed with durable bearings and high-quality materials for long-lasting, maintenance-free operation

Pair the 622 or 631 flat black hinges with the matching 622 BEST exit device for a consistent look.

Trusted experts. Proven reliability. Simply BEST.

## Long-lasting performance and durability.

BEST flat black (US19) hinges offer visual appeal and durability resulting in longer product life, delivering strength and aesthetics in any application

Specifications	
<b>Certifications</b>	Conforms to ANSI/BHMA A156.1 guidelines
<b>Product Specifications</b>	<b>622</b> Brass or bronze product with powder coating applied using an electrostatic charge then heated to cure
